

REED MIDEM AND METAPROP ANNOUNCE NORTH AMERICA'S LARGEST VIRTUAL REAL ESTATE EVENT

BACK BY POPULAR DEMAND: PROPEL BY MIPIM - NYC ONLINE, IN PARTNERSHIP WITH METAPROP

DECEMBER 8 – 11, 2020

A VIRTUAL SUMMIT TO ADDRESS GLOBAL INNOVATION IN REAL ESTATE

NEW YORK – October 16, 2020 – Reed MIDEM and MetaProp are pleased to announce that **Propel by MIPIM – NYC Online, in partnership with MetaProp, and NYC Real Estate Tech Week 2020** will be hosted **virtually on December 8-11, 2020**. Reed MIDEM, the leading organizer of global real estate conferences and networking and business events, together with MetaProp, the premier real estate innovation VC Firm, have again joined forces to organize this flagship event in an online format including networking, one-on-one expert presentations, panels, specialty workshops, and industry insights. **The summit will be the largest, global, and virtual real estate & technology event, highlighting innovation in the built environment.**

NYC Real Estate Tech Week, which was launched in 2015 by MetaProp, the NYCEDC, and various corporate and industry partners, has become the Davos of real estate innovation. The annually-held week of events is anchored by Propel by MIPIM NYC. Through this marquee conference and dozens of other events each year, top government, business, and technology minds from around the world come to the center of the real estate innovation universe, New York City, to learn, network, and do business.

The annual MIPIM-hosted event, which launched the new event name Propel by MIPIM in 2020, has become a global magnet for C-suite real estate leaders and technologists interested in the latest trends shaping the future of their businesses. Last year's summit hosted 1500 participants from 50 countries and 100 speakers across 30 conferences to discuss the current state and trends in the real estate technology industry.

"We're excited to announce this year's online event consisting of even more leading professionals in the real estate and technology industries," said Nicolas Kozubek, Director, Propel by MIPIM. "We look forward to hearing their perspectives, experiences and insights on the future of the built environment. The discussions here will shape the future of our industry."

This conference is the catalyst for a broader, global partnership between MetaProp and Reed MIDEM building upon their long-standing relationship. Both organizations have recommitted to their shared mission to foster innovation in the built environment around the world.

A Forward-Looking Built Environment

This year, the summit will deliver several innovative formats such as Online Learning Expeditions for Israel, United Kingdom and others, an Investor Summit focused on new trends, an Occupier Summit to engage participants around the future of the Workspace, and intimate interviews and fireside chats with role models and industry leaders.

An extensive group of tech companies will showcase their innovative solutions with a specific focus on the recipes for successful adoption of innovation in large organizations. AI, Digital Twins, sustainability and wellness, life sciences and R&D will be prominent.

Inclusion, Equity and Diversity will be a focal point throughout the event and an advisory group including MetaProp, New York City Economic Development Corporation, Sidewalk Labs and Real Estate of the Future has been established to further this initiative. According to New York City Economic Development Corporation's Chief Operating Officer, Rachel Loeb, "Propel by MIPIM – NYC Online, in partnership with MetaProp, could not come at a better time as New York is working to rebound and when innovation is playing a leading role in helping companies to pivot, adapt and identify future growth. This event has showcased some of New York's greatest innovators and thought leaders and we look forward to supporting this event at a time when our region depends on creativity and the effective implementation of technology in so many areas."

"The Propel by MIPIM – NYC Online, in partnership with MetaProp, and NYC Real Estate Tech Week event has the power to unite the industry on a global scale, and the best is yet to come," said Maureen Waters, Partner at MetaProp. "Growing off the momentum of last year's successful event, we have extremely high expectations for the fifth annual summit. We are hoping to replicate online both the size and the diversity of our previous summits, as this diversity is crucial to continued industry growth."
